Enough! Microsoft is one of us. Bill Gates is not Osama Bin Laden! Microsoft is the philanthropic industrialist of our time. Our Country and world is better off because of it. Microsoft is the Einstein of our time. Enough already. Let's get on with life and progress in the United States as it should be. Don't stifle the progress of American Citizens. Microsoft is not just one of us, it is us. Enough!

Sincerely,

James P Buzzanco
